Renewal

SAKAMOTO Baby (girl)

- Accessories/Umbilical cord, Baby powder, Baby clothes, Simulated loose excrement (yellow), Container for mixing simulated loose excrement, Muddler for mixing simulated loose excrement, Tray

Umbilical cord (fit-on & off available)

Feature

Renewed more like newborns with weak neck muscles.

Renewal

- The limbs have seamless structures.
- The head moves in every direction. (Please hold the model by supporting the head as you would do in holding a neonate.)
- The weight of the head has the same proportion as that of a neonate.
- The anterior fontanelle and ribs can be palpated.
- Water infused into the mouth flows out from the urethra so that changing diapers can be practiced.
