HEALTH EDUCATION

1. Smokey Sue

When "Smokey Sue's" bulb is pumped, tar collects in the tube placed where her "lungs" would be. The tube can be passed around for an effective lesson. Smokey Sue comes with five collection tubes and carrying case.

Code	Description	Price
79206	Smokey Sue	\$285.00

Code	Description	Price
80400	Smokey Sue Collection Tubes (10)	\$28.00

2. Smokey Sue Smokes for Two

As "Smokey Sue" smokes a cigarette, tar collects around the lifelike model of a 7-month-old foetus. This model graphically shows the pollutants that can reach a developing baby. The jar and foetus are easy to clean.

Code: 79210 Price: **\$317.00**

Lou-Wheeze Smoker's Lungs Comparison Model

Viewers get a shocking picture of smoking-related lung damage with this interactive display. Lou-Wheeze has two flexible latex lung models. One represents a healthy lung, and the other depicts the damage done by emphysema and cancer. The attached pump inflates the healthy lung as normal, but the diseased lung inflates sluggishly and fails to deflate completely between "breaths." This model comes with a bellows pump and instructions.

Code	Description	Price
79261	Lou-Wheeze Smoker's Lungs Comparison Model	\$479.00

Code	Description	Price
79696	Lou-Wheeze Carrying Case	\$170.00

Life or Death Lungs Model Set

These BIOLIKE 2™ lungs provide a shocking, graphic view of the damage smoking causes. The healthy lung is pink and free of abnormalities. In contrast, the diseased lung is black, has a large greyishwhite cancerous mass, and is covered with spongy bubbles caused by emphysema. These models are sure to make a lasting impression. The model set comes complete with a carrying case.

Code	Description	Price
79826	Life or Death Lungs Model Set	\$399.00

Hand-Held Mechanical Smoker

This small, hand-held model actually smokes a cigarette and collects tar on a photo of a real chest X-ray of a lung cancer victim. Stained prints fit into plastic bags, keeping stains intact when they are passed around for closer inspection. Comes with 100 Mini-Lung™ sheets, plastic bags, and a clip to help keep each bag in place.

Code: 79202	Hand-Held Mechanical Smoker	Price: \$125.00
Code: 80200	Mini Lung Refill Sheets (100)	Price: \$42.00
Code: 80201	Mechanical Smoker Replacement Tubes (5)	Price: \$19.00

Tobacco Ingredients Display

The toxic chemicals found in tobacco smoke are more easily remembered by associating them with common and grossly unappealing substances. This eye-catching, Plexiglas, 3-D display resembles a cigarette yet allows viewers to see what is really inside tobacco smoke. It comes with a two-sided tent card that can be used with adults or children.

Code	Description	Price
79260	Tobacco Ingredients Display	\$225.00

Shortness of Breath Cigarette

When the user breathes through this hollow "cigarette," air deprivation is immediate. Each cigarette has text explaining that breathing through it will simulate the shortness of breath that is caused by lung damage from smoking. Cigarettes are made of durable plastic.

Code	Description	Price
79709	Shortness of Breath Cigarette	\$61.00

The ABCs of Smoking - PowerPoint

Based on the popular "The ABCs of Smoking" booklet, this PowerPoint presentation covers each of the conditions discussed in the booklet. The slides contain text about each condition and feature graphic medical images. The final slide details ways to quit smoking, making this presentation ideal for tobacco cessation programs. Contains 41 slides. ©2006

Code: 48500 Price: **\$135.00**

Say No to Smoking Colouring Book

This entertaining and informative activity book teaches kids about the dangers of smoking through a variety of games and puzzles. Encourages kids to say no to smoking. It explains why smoking is dangerous to those who smoke and the people around them.

Code: 41007 Price: **\$3.50**

Giant Cigarette Action Display

The health benefits of quitting smoking are identified in this interactive display. The display details the positive effects of smoking cessation in time spans ranging from a few minutes to several years after a smoker's last cigarette. The user simply turns the outer sleeve, which progressively reveals the stages of improved health that result from quitting smoking.

Code: 79109 Price: **\$165.00**

Mr Gross Mouth

One of our most popular products, this hinged model of the teeth, tongue, and oral cavity shows the effects of smokeless tobacco use. The hand painted model is mounted on a wooden base. It includes a bottle with simulated tobacco that can be used to make tobacco juice.

Code: 79152 Price: **\$262.00**
Mr Gross Mouth

Code: 79154 Price: **\$31.00**
Mr Gross Mouth Replacement Tongue

Code: 79161 Price: **\$165.00**
Mr Clean / Gross Mouth Carrying Case

Giant Cigarette Model

This model provides a striking demonstration of the dangers of cigarette smoke. It contains a banner showing the poisonous or cancer-causing chemicals contained in smoke. The banner can also be hung on a wall for continual study.

Code: 79110 Price: **\$135.00**

Lung Ashtray

When "Smokey Sue's" bulb is pumped, tar collects in the tube placed where her "lungs" would be. The tube can be passed around for an effective lesson. Smokey Sue comes with five collection tubes and carrying case.

Code 15000 Price: **\$55.00**

A Year's Worth of Tar

This striking, sealed exhibit, containing a cigarette package and cigarette butts submerged in gooey "tar." It represents the amount of the carcinogenic liquid that smoking half a pack of cigarettes per day for 1 year would put through a person's lungs.

Code: 79120 Price: **\$131.00**

Cause of Death: Secondhand Smoke Display

Emphysema blebs bulge from its surface. Multiple tumors infest once-healthy tissue. It sits in an oozing, brown pool of tar. Certainly this is the lung of a chain smoker, right? Wrong. This surprising "post-mortem" lung model shows that secondhand smoke can be an indiscriminate killer, infiltrating and damaging nonsmokers' lungs just as it does those of a smoker.

Code: 78748 Price: **\$249.00**

Mr Dip Lip

This hand painted, 3-D model of the mouth opens and closes from the back like a puppet. The flesh-like BIOLIKE™ lips retract to show the effects that dipping has on the inner lips, gums, and teeth.

Code 79156 Price: **\$275.50**

Smoker's Foul Mouth Display

Graphically displaying what cigarette smoking can do to the mouth, this hand painted model details a variety of harmful effects, including gum disease, tooth decay, lip cancer, and more. This unique, hinged model includes two removable tongues. One tongue depicts a "hairy tongue", and the other portrays leukoplakia and tongue cancer. Mouth is mounted on a hand painted model of the lit end of a cigarette. Comes with a simulated cigarette that can be used as a pointer.

Code 79287 Price: **\$330.00**

What's in Tobacco Smoke? Tear Pad

A companion piece to the Tobacco Ingredients display, this informative tear pad lists some of the chemicals found in tobacco smoke and gives examples of other substances in which they are commonly found. The health consequences of inhaling tobacco smoke and the dangers of second-hand smoke are also discussed. Two-sided, 100 sheets per pad.

Code 52584 Price: **\$58.00**

Hazards during Pregnancy Folding Display

This folding display provides information about the hazardous substances a mother and baby can be exposed to and the consequences of exposure. Topics include diseases and infections, chemicals, alcohol, tobacco, illegal drugs, prescription and non-prescription drugs, and more.

Code Description Price
79349 Hazards during Pregnancy Folding Display **\$212.00**

Smoking & Your Baby Folding Display

Exposure to tobacco smoke poses serious health risks, especially during pregnancy. This folding display clearly outlines the hazards of smoking during and after pregnancy. Also includes information on the dangers of low birth weight.

Code Description Price
 79022 Smoking & Your Baby Folding Display **\$162.00**

What Mommy Does, Baby Does Display

This display features a life-like fetus suspended in a jar simulating the fetal environment. Coloured liquids representing tobacco, drugs, and alcohol are poured into the "mother's" mouth quickly enveloping the fetus in a dark swirling cloud of pollutants.

Code: 78745
 Price: **\$523.00**

What Mommy Does, Baby Does Model

With cigarette butts, pills, a syringe, and beer bottle caps suspended in plastic, this 3-D model illustrates how alcohol, tobacco, and other substances can cross the placenta and damage a foetus. Excellent for health educators and healthcare professionals to use in education or displays.

Code: 79809 Price: **\$109.00**

The Truth about Drugs, Alcohol & Tobacco Game

With 75 fact-filled question cards, this game gets players thinking about the dangers of substance abuse in a non-threatening environment. It can be played to cover alcohol, drugs, and tobacco together or divided to cover each topic separately. This game is ideal for classrooms, substance abuse programs, or counselling environments. Meets education standards and includes reproducible study guide with answer key. For 2 or more players or teams. Year 6-Adult.

Code: 78568 Price: **\$99.00**

The Consequences of Smoking 3D Display

Featuring hand painted, 3-D models, this display shows the diseases and conditions that can result from smoking. Diseases include cancer, heart disease, emphysema, and more. The display is contained within its own durable carrying case.

Code: 79601 Price: **\$703.50**

Effects & Hazards of Smoking Folding Display

This folding display helps viewers understand the initial and long-term effects of nicotine and cigarette smoke on the human body. Also covers problems caused by second hand smoke.

Code: 79079 Price: **\$210.25**

Clever Catch Tobacco Ball

Help players catch the truth about tobacco with the 75 questions about the dangers of tobacco printed on the surface of this ball. Comes with instructions and answer sheet. Years 5-8.

Code: 79264 Price: **\$30.00**

Smoking: Don't Get Burned Folding Display

Teen-oriented graphics and language help young viewers understand that smoking can have negative and immediate effects on their health and appearance. This sturdy folding display identifies the risks of tobacco use and explains that cigarette "alternatives" such as clove cigarettes and smokeless tobacco are not safe choices, either.

Code: 79016 Price: **\$205.00**

Effects & Hazards of Second hand Smoke Folding Display

Many people don't realize that the smoke produced by a burning cigarette is deadly. This folding display points out that inhaling second hand smoke puts people at risk for developing a number of serious conditions and diseases.

Code	Description	Price
79010	Effects & Hazards of Second hand Smoke Folding Display	\$205.00

The Consequences of Second hand Smoke 3D Display

A great visual teaching tool, this display uses 3-D, hand painted models and informative text to demonstrate and explain health-related conditions associated with second hand smoke inhalation. The display is contained within its own portable carrying case.

Code	Description	Price
79605	The Consequences of Second hand Smoke 3D Display	\$703.50

Quit Smoking for Life Folding Display

Informative and motivational, this folding display encourages viewers to quit smoking and provides tips and strategies to become smoke-free. Also addresses reasons to quit and concerns about weight gain.

Code	Description	Price
79010	Quit Smoking for Life Folding Display	\$205.00

The Consequences of Smokeless Tobacco Use 3D Display

This 3-D display graphically shows that using smokeless tobacco is harmful and deadly. Detailed, hand painted models illustrate health conditions caused by smokeless tobacco use, and the informative, easy-to-understand text is complemented by line drawings. The display is contained within its own durable carrying case.

Code	Description	Price
79603	The Consequences of Smokeless Tobacco Use 3D Display	\$703.50

A Wreck Isn't the Only Thing That Can Harm Them Poster

Although safely secured in a car seat, the infant in this poster is still in danger from the driver's second hand smoke. Children can develop asthma and many other health problems because of second hand smoke. Great for schools, waiting rooms, and more.

Code	Description	Price
90244	A Wreck Isn't the Only Thing That Can Harm Them Poster	\$31.00

What's Your Poison? Display

Emphasizing the poisons contained in cigarette smoke, this interactive 3-D display associates those poisons with other items that contain them. Included are toilet cleaner (ammonia), a lighter (butane), batteries (cadmium), and 12 other items. Background provides details on each poison and what it can do to the body.

Code:	72090	Price:	\$485.88
-------	-------	--------	----------

Smokey Eyes Goggles Game Kit

Smoking is the most preventable cause of macular degeneration, an eye disease that can lead to a loss of vision. These goggles are designed to simulate the effects of this serious disease and provide emphasis for the idea that not smoking is the wisest choice. Game kit includes a pair of Smokey Eyes Goggles, five stress balls, four toss bags, a catch bucket, a bag with target imprint, and a Smokey Eyes Goggles Activity Guide with activities and reproducibles.

Code	Description	Price
79373	Smokey Eyes Goggles Game Kit	\$465.00

I Love Not Smoking! Activity Book

A storybook that features activity and coloring pages on smoking. This book helps children identify themselves as nonsmokers and highlights the benefits of a lifetime of good health.

Code	Description	Price
50674	Smokey Eyes Goggles Game Kit	\$4.95

HEALTH EDUCATION

Smoking Prevention Bingo

Offering a unique approach to smoking prevention education. This bingo game covers five important topics: why kids smoke, the effects of smoking, facts about tobacco, ways to say no, and smoking prevention activities. The calling cards provide additional information that can serve as a springboard for group discussion. The game includes calling cards, 16 bingo cards, instructions, informative handout, and bingo chips.

Code: 79354 Price: **\$149.00**

Kissing a Smoker Poster

This striking poster offers a dramatic twist on a classic message. Instead of asking smokers to consider their health and the health of loved ones, this poster raises the question of social disapproval.

Code: 90409 Price: **\$37.50**

Being Me and Tobacco-Free!

Activity Book Designed to introduce young children to the dangers of tobacco. This activity book uses simple language to explain what tobacco is, how it is used, and why it is harmful. Activities include drawing pictures, matching words to images, connecting the dots, and coloring pictures.

Code: 51362 Price: **\$3.50**

Smoked Lung Model

This realistic, 3-D lung model lets viewers see just what cigarette smoking does to their lungs. When the top is opened, a greyish-white fibrous-feeling cancer is revealed. Made from BIOLIKE 2™ synthetic tissue, this model of a right lung with emphysema and cancer is excellent for individual and group instruction.

Code 26813 Description Smoked Lung Model Price **\$275.00**

Cough Up a Lung Model

A great hands-on tool for helping viewers understand the dangers of smoking, this graphic model shows a lung damaged by COPD (chronic bronchitis and emphysema) and cancer. Realistic model can be shown either with two halves placed together to form a whole lung or split apart to show a cross section of the lung. Comes with an informative tent card.

Code 78958 Description Cough Up a Lung Model Price **\$342.00**

Death of a Lung Easel Display

When a patient or student views realistic models of lung tissue affected by smoking, the impact is stronger than any words or photographs. Cast from real specimens, these three hand painted models represent a normal lung, a lung with emphysema, and a lung with cancer. This unique, 3-D display illustrates the dangers of smoking in a way viewers will never forget. Measures 23 x 30cm.

Code: 79148 Price: **\$235.00**

Smoker's Roulette Game

This game shows that smoking is a high-risk gamble. With satirical artwork that lampoons popular cigarette brands, the roulette wheel demonstrates that smoking dangers include lung cancer, emphysema, heart disease, and more. Comes with teacher's guide.

Code: 79139 Price: **\$275.00**

The ABCs of Smoking Booklet

Medical photography and detailed text combine to describe dozens of conditions and diseases associated with tobacco use. This is an effective tool for use in smoking cessation programs, health fairs, clinics, and more. 16 pages, 14 x 22cm. (Pack of 50)

Code: 40013 Price: **\$4.95**

The ABCs of Smoking Flip Chart

Medical photography and detailed text combine to describe dozens of conditions and diseases associated with tobacco use. This flip chart which is an effective tool for use in smoking cessation programs, health fairs, clinics, and more. The flip chart features presenter's notes on the reverse panels. 6 panels.

Code: 43107 Price: **\$175.00**

Teeth in Tobacco Juice

Sealed in a plastic jar of simulated tobacco juice and tobacco flakes. This model of damaged and decayed teeth and gums sends a clear message about the effects of smokeless tobacco use.

Code: 79123 Price: **\$142.50**

Clem's Phlegm

Graphically demonstrating one of the nasty consequences of smoking, this attention-getting sealed jar contains about 2 weeks of the phlegm that would be coughed up by a smoker with COPD. Great discussion starter for any anti-smoking lesson or program.

Code: 79201 Price: **\$137.50**

Tainted Blood: Smokers' Blood Revealed Display

A representation of an artery where carbon monoxide is keeping oxygen from flowing to the body's organs and muscles. Also shows plaque buildup caused by smoking and poisons from cigarette smoke traveling through the bloodstream. Two-sided tent card explains the model in detail.

Code: 79864 Price: **\$205.00**

Sex under the Influence Awareness Kit

Sex and alcohol are a dangerous combination, and this kit helps demonstrate that important point. Users quickly discover how difficult it can be to keep sex safe after drinking alcohol. The kit comes with an 'Economy Condom Training Model' (with syringe, UV light-sensitive fluid, and condoms), a pair of 'Boozed & Confused™ Night-time Goggles', and an activity guide that describes activities that use the kit and provides information about the dangers of mixing alcohol and sexual activity.

Code: 75080 Price: **\$455.00**

Alcohol and Pregnancy Booklet

A pregnant woman who drinks alcohol puts her baby at risk for serious birth defects and developmental problems. This booklet helps educate women about the dangers of alcohol consumption during pregnancy and emphasizes that no amount of alcohol is safe during pregnancy.

Code: 40053 Price: **\$4.95**

Disgusting Smell: Tobacco Display

This fun display counts down the most rotten smells imaginable and then allows viewers to smell the worst, foulest, nastiest smell of all: tobacco smoke. This display reminds viewers that the rancid smell of tobacco smoke (full of formaldehyde, benzene, and other poisonous chemicals) is absorbed into the hair, clothes, and skin of smokers. It is an excellent way to present one of the more repellent aspects of smoking without using real cigarettes.

Code: 79798 Price: **\$152.00**

Smoked Lung Model

This realistic, 3-D lung model lets viewers see just what cigarette smoking does to their lungs. When the top is opened, a greyish-white fibrous-feeling cancer is revealed. Made from BIOLIKE 2™ synthetic tissue, this model of a right lung with emphysema and cancer is excellent for individual and group instruction.

Code	Description	Price
26813	Smoked Lung Model	\$275.00

The Consequences of Alcohol Abuse 3D Display

This 3-D display shows many of the physical consequences of alcohol abuse. Permanently mounted, life-size, hand painted models are graphic and accurate. Each model is described in easy-to-understand terms. The display is contained within its own sturdy carrying case.

Code	Description	Price
79612	The Consequences of Alcohol Abuse 3D Display	\$702.50

DW Eyes™ Game Kit

Wear the Drunk & Dangerous™ Goggles and experience the visual distortion, loss of perception, and lack of control that makes drunk drivers so dangerous. The role-playing games use the goggles to make drunk driving consequences more realistic. The game kit includes two pairs of Drunk & Dangerous™ goggles, an instructional DVD, Wreck Your Life game, teacher's guide with reproducible handouts, and 25 16-page booklets. No specific blood alcohol concentration is represented.

Spin the Bottle Game

This fun and interactive game puts a new spin on alcohol education. The vivid design features a wheel which includes a mock bottle of whiskey and numerous alcohol-related categories such as violence, depression, and drinking and driving. Comes with teaching suggestions and trivia cards.

Code: 79339 Price: **\$263.08**

Death of a Liver Easel Display

Emphasizing alcohol's role in liver disease, this easel display features cross-sectional, 3-D, hand painted models. The models represent a normal liver, a liver with hepatitis, and a cirrhotic liver.

Code: 79150 Price: **\$215.36**

Alcohol Changes Everything Game

This fun and educational board game helps players learn how life can change dramatically when alcohol is abused. Players earn points by moving through the game and answering questions about the consequences of alcohol abuse. On several spaces, players draw an alcohol danger event card that describes an occasion during which alcohol abuse could occur. Players use the included alcohol bottle decoder to read the card's hidden message and see whether alcohol has caused costly consequences. For 2-8 players or teams.

Code: 79063 Price: **\$175.00**

Alcohol Prevention Bingo

Each card in this unique version of bingo contains a fact or idea to get players thinking about why they shouldn't use alcohol. The cards include information about why kids drink, alcohol myths and facts, the effects of drinking, the dangers of drinking and driving, and how to say no. The game includes 16 bingo cards, calling cards, instructions, and bingo chips. Years 7-12.

Code: 79355 Price: **\$142.00**

Drinking Clock Action Display

Reinforcing the message that people should take time after drinking to be safe. This informative display reveals the approximate amount of time the body takes to process alcohol. It is ideal for driver education, health classes, or community education. Comes complete with teaching suggestions.

Code: 79130 Price: **\$299.00**

Drugs, Alcohol, and Tobacco Bingo

Using the popular bingo format, this game is a great tool to help players learn the dangers of drugs, alcohol, and tobacco. Covers stimulants, depressants, tobacco, marijuana, hallucinogens, alcohol, and other drugs. Includes 30 bingo cards, 75 question cards, bingo chips, instructions, and master key. Year 6-Adult.

Code: 79871 Price: **\$99.00**

Substance Abuse ID Guide Booklet

One of the biggest problems in dealing with drugs and alcohol is being able to recognize signs of abuse. This material can be used to teach employees, families, and students about different types of drugs and the symptoms of their use. Covers alcohol, inhalants, narcotics, depressants, stimulants, cocaine, hallucinogens, and marijuana.

Code:40022 Price: **\$4.75**

Jane is So Cool Poster

By showing that death is a possible consequence of binge drinking, this poster emphasizes the danger of ingesting too much alcohol too quickly.

Code:90019 Price: **\$35.00**

Dial-A-Drug Wheel

This wheel provides information about the most common types of drugs, their uses, and symptoms of abuse.

Code: 85100 Price: **\$31.00**

Clever Catch Drugs & Alcohol Ball

Toss this ball around as a way to introduce the difficult topic of substance abuse in a fun way. Features more than 30 questions about how drugs and alcohol can affect health and lifestyle. Comes with instructions and answer sheet. Years 5-8.

Code: 79689 Price: **\$30.00**

Effects and Hazards of Substance Abuse Folding Display

Outlining both the physical and social consequences of substance abuse, this folding display offers an excellent overview of a number of dangerous substances, including narcotics, inhalants, club drugs, and more. This display also includes information on getting help for a substance abuse problem.

Risks of Obesity

Available in paper, soft and rigid lamination. Measures 51cm x 66cm.

Code: GPA3600
Dimensions: 51cm x 66cm
Price: **\$163.20**

Exercise Clever Catch Ball

This colourful, inflatable ball has 98 questions relating to health and fitness printed on its surface. It comes with an answer sheet and instructions. Years 6-9,

Code: 79680 Price: **\$30.00**

Fat Vest Adult Size

People who wear this weighted vest will excitedly recount the experience afterward-just as soon as they catch their breath. Simulating the "look" and "feel" of excess body fat the vest also creates the fatiguing restrictive feeling associated with obesity. By inserting five weights into the adult vest's interior pocket, the user can "gain" up to 20 extra pounds.

Code: 26003 Price: **\$628.00**

Fitness Dice

These two jumbo dice help make exercise fun and exciting. One die features exercises such as pushups, jumping jacks, and leg lifts, while the other die has even numbers ranging from 2 to 12. With each roll, participants perform the activity shown on the first die the number of times shown on the second die. Colours may vary

Code: 79025 Price: **\$63.00**

10-Sided Fitness Dice

Made of a durable latex rubber, these fitness dice offer a touch of variety to any fitness program. One die contains exercises such as toe touch, bicycle, arm circle, and sit-up, while the other die has even numbers to indicate the number of repetitions.

Code: 79049 Price: **\$115.00**

Occluded Artery Model

The potentially deadly effects of high cholesterol are demonstrated with this persuasive model. The tube represents an artery constricted by plaque, which forms on artery walls when there is excess cholesterol in the blood. When the model is turned over, the blood in the artery slows or stops completely. An excellent tool for explaining the importance of keeping cholesterol under control.

Code: 79145 Price: **\$141.20**

Get Moving Poster

Featuring teens in action, this energizing poster motivates young people to be physically active every day.

Code: 90873 Price: **\$52.50**

Obesity Model

This model shows Pear and Apple shaped bodies in two crosssections (one left, one right) of the hip area. These models illustrate the effects of obesity such as compressor from visceral fat on the colon, common iliac artery veins, ureter, small intestine, femoral nerve, etc.

- Model Size: Pear: 10 x 14 x 9cm
- Apple: 9 x 15 x 9cm

Code: 90873 Price: **\$52.00**

Keys to Healthy Eating

Available in soft and rigid lamination. Measures 51 x 66cm.

Code: KEYSL Price: **\$22.00**
Code: KEYSL Price: **\$30.00**

Deluxe Occluded Artery Model

Demonstrating the benefits of a healthy cholesterol level and the deadly effects of high cholesterol, this model will leave an impression that lectures and textbooks cannot. The model's two tubes represent a normal artery and an artery constricted by plaque. When the model is turned over, the blood in the healthy artery flows swiftly to the top, but the blood in the occluded artery slows and even stops completely.

Code: 79153 Price: **\$285.00**

Clogged Artery Model

This unique model vividly demonstrates what happens inside a clogged artery. The inside passage of this artery, made of BIOLIKE 2™ synthetic tissue, is everely constricted by layers of plaque.

Code: 26526 Price: **\$129.00**

Death of an Artery Easel Display

These hand painted, cross-sectional, 3-D models of arteries show patients and students the various stages of plaque buildup. The interior size of each vessel diminishes, making it easy to explain a process that can eventually result in death.

Code: 79149 Price: **\$228.00**

Piece Artery

4-stage cross section of an artery demonstrating atherosclerosis, in which the narrowing of the artery is due to a build-up of fatty tissue (cholesterol) and plaque. The 4-stages consist of • normal artery • fatty streak • fibrous plaque, and • blockage. The stages cause a decrease in blood flow, which can then lead to a blood clot or thrombus. All stages rotate on a hinge pin.

- Model size: (4) 3cm dia x 2cm (8cm)

Code: GPA2650
Dimensions: 3cm dia x 2cm (8cm)
Price: **\$85.00**

Cholesterol Flip Chart

Many people do not know what steps they can take to maintain healthy cholesterol levels. This flip chart explains the facts about "good" and "bad" cholesterol and the health risks associated with high cholesterol levels. The flip chart features presenter's notes on the reverse panels. 6 panels.

Code: 43117 Price: **\$175.00**

Mini Heart Set

This three model set contrasts a normal heart with ones showing Myocardial Infarction and Congestive Heart Failure. The myocardial infarction heart demonstrates a partially healed, thinned, and discoloured infarcted area, including a thrombus in the apex of the heart. The remaining heart demonstrates congestive heart failure as a result of hypertension. The left ventricle hypertrophy and the correspondingly enlarged and distorted shape of the heart are shown both internally and externally. All models are approximately 50% actual size and the set comes with a descriptive card.

- Model sizes: Normal & MI 10cm x 6cm x 4cm, CHF 10 x 6 x 6cm

Code: GPA2550 Description: Mini Heart Set Price: **\$2550.00**

Blood Pressure Checks Easel Display

Patients and students learn the importance of blood pressure checks when they see these hand painted, 3-D models of arteries and this cross section of the brain. Demonstrates the way high blood pressure can silently lead to heart attacks or strokes.

Code: 79736 Price: **\$225.00**

High Blood Pressure Flip Chart

High blood pressure can be controlled through diet, exercise, lifestyle changes, and prescribed medication. This flip chart explains risk factors associated with high blood pressure and discuss strategies for preventing and controlling it. The flip chart features presenter's notes on the reverse panels. 6 panels.

Code: Price: **\$275.00**

Hypertension Model Set

This set contains miniatures of the half brain, eye, heart, kidney and artery models. The normal right-side half brain features the frontal, parietal, occipital and temporal lobes. The eye model has been sectioned to show the inner anatomy of the eye. The two-piece normal heart model opens in half to show the inner chambers and valves of the heart. The kidney shows a longitudinal section of the right kidney and adrenal gland. An oversized "Y" section of an artery, complete with cut-away, showing the gradual build-up of cholesterol deposits. The education card illustrates the effects associated with hypertension: glaucoma, artherosclerosis, arterial plaque, kidney failure and stroke

Code: GPA4000 Price: **\$187.00**

What You Should Know about High Blood Pressure Folding Display

This display describes the symptoms of high blood pressure, explains its causes, and discusses methods of controlling blood pressure.

Code Description Price
79285 What You Should Know about High Blood Pressure Folding Display **\$215.00**

The Consequences of High Blood Pressure

Need to give people a compelling reason to avoid high blood pressure? Better yet give them eight reasons. From bursting arteries to blindness, this display is a real chamber of horrors illustrating the critical importance of managing blood pressure correctly. Easily transported in a self-contained carrying case. 71cm x 68cm opened.

Code: 79649
Dimensions: 71cm x 68cm
Price: **\$703.50**

Diabetic Injection Model Kit, Beige

Made from realistic BIOLIKE™ material, these teaching models facilitate technique practice on both an injection "skin" and a finger stick apparatus. The skin model may be strapped to the user's arm or leg to simulate a needle injection site, and the finger stick model may be held for lancet practice. Both can be punctured repeatedly. Replacement skin for the skin model and replacement finger are also available. Comes with powder and carrying case.

Code Description Price
26102 Diabetic Injection Model Kit, Beige **\$88.00**
26229 Diabetic Injection Model Skin and Finger **\$65.00**

Diabetes Flip chart

This flip chart explains type 1, type 2, and gestational diabetes as well as the risk factors and warning signs of each one. Information on prediabetes, testing, complications resulting from diabetes, and managing diabetes is also included. The flip chart features presenter's notes on reverse panels. 6 panels.

Code Description Price
43130 Diabetes Flip Chart **\$181.00**

A1C Levels

Capture viewers' undivided attention with this clever divided model. One half represents a healthy blood sugar and A1C level by depicting a small number of glucose particles and a red blood cell model that has few glucose particles attached to it. In contrast, the model's other red blood cell is "swarmed" by excess glucose particles as it floats through simulated plasma, representing a high blood sugar and A1C level. Model is 27cm x 5cm. Includes informative, bilingual English/Spanish tear pad. 100 sheets per pad.

Code	Description	Dimensions	Price
75485	A1C Levels	27cm x 5cm	\$202.00

What You Need To Know About Diabetes Folding Display

With information about risk factors, symptoms, and complications of diabetes, this folding display is a valuable resource for health educators. It explains the different types of diabetes and describes how the disease can be treated. Measures 147 x 57cm opened.

Code	Description	Dimensions	Price
79302	What You Need To Know About Diabetes Folding Display	147 x 57cm	\$215.00

Type II Diabetes Model Set

There isn't a single part of the body that is immune from the devastating effects of unmanaged diabetes. This cleverly designed display features models of the brain, eye, heart and artery, kidney, pancreas, neuron, and foot creating a great visual for explaining the effects of type 2 diabetes. Key card discusses related conditions such as stroke, heart disease, and foot ulcerations. 71cm x 25 x 15cm.

Code: GPA4010
Dimensions: 71cm x 25 x 15cm
Price: \$239.00

The Consequences of Diabetes 3D Display

Hand painted, 3-D models and straight forward text explain the negative effects diabetes can have on the body. This is a great tool for promoting awareness of this potentially devastating disease. The display is contained within its own sturdy carrying case.

Code	Description	Price
79302	The Consequences of Diabetes 3D Display	\$703.50

Nutrition Toss Up Ball

Learning about nutrition can be fun with this inflatable ball, which is covered with pictures of 35 different foods. It can be used to help users identify foods and food groups and learn what certain foods contribute to the diet. Comes complete with instructions for different activities and an answer sheet. Year 6-Adult.

Code: 79024	Price: \$30.00
-------------	-----------------------

A Day's Worth of Fat

Containing simulated blood and fat, this heart-shaped bottle shows the approximate amount of fat a person consumes in a day. Based on a diet of 2,200 calories with 40% of calories from fat. This model creates an awareness of the dangers of a high-fat diet.

Code: 79728	Price: \$109.00
